Response dated September 10, 2004
Reply to Office Action of June 10, 2004

REMARKS

The Applicants would like to note at the outset that they do not know the mailing date since the first page that normally contains the mailing date was missing in the Office Action. The Applicants are therefore responding to the Office Action containing the date 6/10/04 under the Examiner's initials on page 4 of the Office Action.

The Examiner has stated that claims 1-3, 4-6, 9-12, 17-19 and 20-23 would be allowable if the applicant overcomes the Double Patenting rejection.

Applicants have enclosed a Terminal Disclaimer in compliance with 37 CFR 1.321 (c). Since the Terminal Disclaimer is signed by the Assignee, a statement under 37 CFR 3.73 (b) is also being filed herewith. Attached to the Statement under 37 CFR 3.73(b) are, Attachment 1 showing the assignment of the parent application, with application number 08/851010, to Nokia Mobile Phones, and Attachment 2 which is a copy of the application to the USPTO for conveyance of the assignment of both the parent application, which has issued as US patent number 6088342, and the instant continuation application, with application number 09/610749, from Nokia Mobile Phones Limited to Nokia Corporation. The Statement under 37 CFR 3.73(b) is signed by a person empowered by an organizational resolution and a copy of the resolution, labeled Attachment 3, is attached herewith. A Power of Attorney and Correspondence Address Indication form, signed by the Assignee, is also enclosed herewith.

Applicants believe that the timely filed Terminal Disclaimer complies with the recommendation set forth by the Examiner to overcome the double patenting rejection, and therefore places the aforementioned claims in condition for allowance.

Applicants have amended claim 26 to correct an un-substantive error.

Applicants have also added 6 new method claims, 28-30 and 31-33, that correspond
